

How to get onto the motorway from Reus Airport

Although the main motorway south AP-7 is very close to Reus Airport, there isn't a motorway sign as you leave.

Arboleda is 80 Km. south of Reus and less than an hour on the motorway.

1. As you leave Reus airport you reach a T-junction. The only signpost there points to Reus and Tarragona to the right - follow it. Don't turn left or you will find yourself on a dual carriageway heading away from the motorway.
2. A few hundred metres further on you will come to a roundabout at which you take the third exit which is signposted the T-11 towards Tarragona.
3. After a few Km. the road divides and you have to keep in the T-11 lane towards Tarragona.
4. After a few Km. more, you will see a sign for the motorway AP-7 to the left, and then you should take direction south towards Valencia, away from Barcelona.
5. You should leave the motorway at junction 41 to Amposta and Sant Carles de la Ràpita. You might want to have some small change in your pocket to pay tolls - at Jan-2007 Reus-Amposta costs 5,60 €.

Getting back to the airport is very simple. Leave the AP-7 at junction 34 (Reus) and take direction Reus. After exactly one Km. you will see the sign to the right for Reus airport.
